

As a daily listener of K-LOVE radio station, I would like the FCC to know that K-LOVE provides a unique and very valuable asset that is in the public's best interest. In this day in age when so many radio stations have degrading content, disgusting DJ's, and foul language as part of their programming, K-LOVE is one of the very few stations that provides clean, uplifting, and encouraging programming. It is also one of the few stations that I allow my 3 children to listen to, because I know that on K-LOVE, they will only hear family friendly content.

The effect on me, my family, and my community at large would be negatively affected if K-LOVE were replaced by a LPFM radio station as my family would not be able to enjoy the wonderful programming K-LOVE provides. Additionally, I travel for work and it is great being able to travel to other cities and hear the K-LOVE broadcasts. This would not be possible if K-LOVE were replaced by a LPFM radio station.

I urge you not to allow LPFM radios stations and to continue the use of FM translators so that K-LOVE will continue to be broadcast in my city.
